# Fat CATCH!

Our idyllic lake is a fishing paradise with guaranteed catch. You will get all the equipment and expert support... also for the subsequent barbecue. Our fish live in a natural environment. Since 2015 we have supported the wildlife conservation programme of the Swiss federal office for environment and farm native Swiss crayfish, which are in danger of extinction.

# Fine Dining AT FISCHERHÜSY

You are always welcome in our familiar and cosy Fischerhüsy in the midst of wonderful nature. Enjoy a drink, a snack or a wide variety of homemade meals. Our specials are trout from our own lake and Swiss native crayfish. However, also meat lovers, vegetarians or guests with special diet will find their wishes fulfilled to it's best.
